PARK NURSERY CO.
P. O. Box 886. Pasadena, Cal.

To Our Customers.

The issue of a Descriptive List of our Roses, Chrysanthemums and other flowering specialties we believe supplies a felt want. To meet the growing demand for these popular flowers, we devote much attention to their culture, and our stock while select is very complete.

The conditions of soil and climate in this section are so favorable, that we are able to grow better plants, more quickly, in open ground, than eastern dealers can raise under glass. This fact and a comparison of the prices here given with those found in eastern catalogues, ought to convince intending purchasers that in placing their orders with us they will save time and money and get plants which require less nursing. But for lack of space this list might well have included other specialties, such as Begonias, Coleus, Pelargoniums, Border Plants, etc., prices of which are given in our general list under the heading of Flowering and Foliage Plants.

True to Label.—We try in every way possible to avoid mistakes, but if plants are supplied which prove untrue to label, we desire to be notified, and will replace them or refund the purchase price.

Substitution.—When unable to fill an order for a certain variety, as a rule, we prefer not to substitute, but if in any case we decide to do so, that variety of equal value will be chosen which most closely resembles in habit of growth, as well as color and size of flower, the one ordered, and care will be taken that the true name is distinctly marked.

Mail and Express Orders.—To suit those at a distance, orders amounting to not less than \$2 will be sent by mail or express, carriage prepaid. The plants will be good, well grown specimens, though lighter and smaller than we can supply when goods are shipped at expense of purchaser or delivered at nursery.

CONDITIONS OF SALE.

Articles on this list will be supplied at the annexed prices only when the quantity named shall be taken, excepting that Six, Fifty or Five Hundred will be furnished at the Dozen, Hundred or Thousand rate respectively in all cases except plants which are sold by the box. In furnishing assortments of fruit trees, as well as plants, at wholesale rates, we reserve the right of selecting varieties; but these will be of leading, popular sorts, and in all cases we give the purchaser his choice as far as practicable. In no case will we supply long lists of selected varieties to nurserymen or others at wholesale rates, but at such a discount from retail prices as circumstance will justify.

Prices quoted do not include packing, for which a moderate charge covering cost will be made, but no charge is made for delivery to railroad or express office in Pasadena, after which they are at the risk of the purchaser, and any claim for damages should at once be made on the forwarders.

Where no route is named by which goods are to be shipped, we forward to the best of our judgment, and assume no responsibility thereby.

Claims for allowance or errors, if any, must be made on receipt of goods or they will not be recognized. All errors cheerfully corrected if properly vouched for and claim is made promptly, but we will not be responsible in any greater amount than the original purchase price of the goods, and all sales are made strictly on these conditions.

Terms of payment: Cash, or satisfactory security, on delivery or shipment of goods.

All orders to be sent by express, C. O. D., must be accompanied by one-half the amount in cash.

Remittances may be made by Draft, P. O. Order on Pasadena, Registered Letter or Wells, Fargo & Co's Money Order.

DESCRIPTIVE CATALOGUE.

Roses.

NOVELTIES.

Price, 2½ to 4-inch pots, 25 cents to 50 cents each.

- Baronne de Hoffmann, Noisette—copper red, large and full
Countess Anna Thun, Tea—orange salmon, shaded silvery pink.
Dr. Pasteur, Hybrid Tea—rosy carmine, large and full.
Duchess of Albany, Hybrid Tea—delicate silvery rose. Sport from La France.
George Pernet, Polyantha—silvery yellow passing to rose, constant bloomer.
Luciole, Tea—carmine rose, saffron tinted, peach like.
Mme. Georges Bruant, Rugosa, Hybrid Japanese—dazzling white.
Mme. Hoste, Tea—yellowish white, finely shaped.

Souvenir de Gabrielle Drevet, Tea—salmon pink, center coppery rose.
Souvenir de Wootton, Hybrid Tea—rich red, free blooming.
White Perle, Tea—fine white. Sport from Perle des Jardins.
Ye Primrose Dame, Tea—outer petals soft canary, glowing apricot center.

New Tea Rose—Madame Helene Berger.

Having purchased the entire stock and control of this beautiful novelty, imported from Japan by Messrs. H. H. Berger & Co., of San Francisco, and fully tested it, we find it to be all that the importers claimed for it. We regard it as the finest white rose in our collection, the buds being from two to three inches in length, very pointed, and delightfully tea scented, in color pure silvery white, shaded at base with light lemon yellow; when opened it is semi-double. The plant is of compact habit, a good grower and most profuse bloomer. Its chaste beauty is universally admired by those who see it. When generally introduced it is sure to become a great favorite. It will be offered to our customers in the spring of 1891.

NEW AND SCARCE VARIETIES.

Price, 2½ and 3-inch pots, 15 cents each, \$1.50 per dozen. Strong plants from open ground, 35 cents to 50 cents each, \$3 to \$5 per dozen.
